

# THANKSGIVING DAY BLESSINGS

WERE OURS AS WE WELCOMED

LOUISA RENAE  
WILSON

INTO OUR FAMILY.

Born: November 24, 2011

Weight: 7# 11oz.

Length: 21”

Louisa's entry into the world is quite a story! We had planned our very first hospital birth, mostly due to the postpartum complications last time, but the Lord had other plans. After an unusually fast labor, it was clear we were not even going to make it out the door--let alone the 1 hour 15 minute drive to Gerber Hospital in Fremont. While the kids were still leaving the house with Grandma Wilson, Louisa was pushing her way into the world. Pete ended up delivering little Louisa himself. (He did a splendid job.) Our former midwives had been notified via phone, dropped everything to come to our aid, and arrived about 20 minutes after Louisa was born. All went extremely well. Jill and baby were doing great, and there was no postpartum pre-eclampsia after this birth. We praise God for doing “all things well.” These were not our plans, but we rejoice in how well everything turned out.
